

# Sustainable Packaging

CHOICAL for a world  
without plastic waste.

[WWW.CHOICAL.COM](http://WWW.CHOICAL.COM)

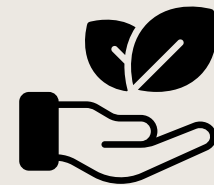

## We offer machines for your inline production and finished packaging!

Our machines **seamless integrate** into your production while operating '**plug-and-play**' for **quick setup** and immediate functionality.

Our packaging is created from **renewable materials** and available in **diverse shapes, colours, and sizes**.

## Recyclable & Compostable

Our packaging is **recyclable and certified compostable** at the same time. Even if our packaging ends up in nature it **dissolves naturally** - leaving **no microplastics** behind!

## Stunning Aesthetics

Our **moulded packaging** stands out with its meticulously crafted, **close-contoured design**, ensuring a **captivating presentation** every time.

## Cost Saving Sustainability

### STEP 1:

Replace plastic or pulp tray with a Chocal paper tray.

### STEP 2:

Eliminate the folding carton while the tray is transformed into a blister.

Truly sustainable packaging!

**Say goodbye to excessive packaging:**

The right material and as little of it as possible! Our sustainable all-in-one solution enables:

- ✓ **50% Cost Savings**
- ✓ **82% CO2 Reduction**
- ✓ **70% Material Savings**

**We offer packaging in various shapes and sizes - even transparent options are available!**
